

## Series 1224 Epoxoline WB

### PRODUCT INFO

#### Conforms with:

- LEED v4.1 ID+C, BD+C: Low-Emitting Materials - Paints & Coatings\*
- Collaborative for High-Performance Schools (CHPS): Paints & Coatings
- WELL Building Standard v2: X06 VOC Restrictions
- Living Building Challenge - Health + Happiness, Imperative #10

*\*Note: Sections shown are based on LEED v4.1*

#### VOC Content

|                                      |                                                                                                                 |
|--------------------------------------|-----------------------------------------------------------------------------------------------------------------|
| <b>Air District Regulation</b>       | South Coast Air Quality Management District (SCAQMD) Rule 1113                                                  |
| <b>Intended Use Category</b>         | Industrial Maintenance                                                                                          |
| <b>VOC (g/L, Unthinned)</b>          | 1                                                                                                               |
| <b>Manufacturing Location</b>        | North Kansas City, 64116                                                                                        |
| <b>Shop or Exterior Applications</b> | Coatings may contain any grams/Liter VOC content if applied to the exterior of the building or applied in shop. |

#### Materials and Resources (MR) Credits

|                                                                                   |                                                                                            |
|-----------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------|
| <b>MR Credit 2:</b> BPD - Environmental Product Declarations (EPDs)               | Tnemec coatings do not meet credit requirements.                                           |
| <b>MR Credit 3:</b> BPD - Sourcing Raw Materials                                  | Tnemec coatings do not fully meet credit requirements.                                     |
| <b>MR Credit 4:</b> BPD - Material Ingredients/Health Product Declarations (HPDs) | At this time, Tnemec does not carry publicly available Health Product Declarations (HPDs). |

#### CDPH Emissions Testing

|                                   |                                                                                        |
|-----------------------------------|----------------------------------------------------------------------------------------|
| <b>Test Date</b>                  | January 29, 2025 (Valid Jan. 2025 to April 2026)                                       |
| <b>MAS Certificate No.</b>        | MAS2400774R2-02                                                                        |
| <b>CDPH Scenario (Use)</b>        | Classroom / Private Office                                                             |
| <b>CDPH Emissions Test Report</b> | Available upon request or download the <a href="#">MAS Certified Green Certificate</a> |
| <b>Total VOC (TVOC) - 14 Days</b> | 0.5 mg/m3 to 5.0 mg/m3                                                                 |
| <b>Reference Standard</b>         | California Dept. of Public Health Standard Method v1.2-2017                            |
